

Kevin Chi

917-385-6998 | New Orleans, LA | [Gmail](#) | [Github](#) | [Site](#) | [LinkedIn](#) | [Blog](#)

EMPLOYMENT HISTORY

DXC Technology, New Orleans LA

Full Stack Developer, *January 2019- Present*

- +Built a data visualization dashboard using Node, Express, MongoDB, and Angular2
- +Wrote Javascript algorithms to parse and compare files with different data formats
- +Unit-tested Node applications using Mocha testing framework and Chai assertion library
- + Followed Agile methodologies and used Scrum workflow through sprint planning/retrospective, daily standups, and creation of user stories

TECHNICAL SKILLS

Proficient: JavaScript, Node.js, React.js, Redux, HTML5, CSS3, Git, Mocha

Familiar: Angular2, Ruby on Rails, SQL, Python

TECHNICAL PROJECTS

Chat'nPost - [Github](#) | [Live Site](#)

Social media site for posting content, and a real-time chatroom.

- +Utilized socket.io to enable real-time messaging and dynamic list of online users
- +Used React/Redux for the frontend, Node/Express for backend API, and MongoDB as the database
- +Secured Users with JWT Authentication and Passport
- +Mobile-first layout, featuring full-responsiveness with Flexbox, custom CSS, and FontAwesome

Restaurant Finder - [Github](#) | [Live Site](#)

Web app for discovering restaurants through Yelp's API.

- +Connected React frontend to a backend Rails API for user token authentication with Devise.
- +Utilized redux for storing state, and react-redux plus redux-thunk for dispatching asynchronous actions to reducers
- +Incorporated Yelp's API to fetch restaurant information according to user input
- +Used Flexbox for layout, and custom CSS for style and responsiveness

Workout Journal Web App - [Github](#) | [Live Site](#)

Easily create workout routines, and log workouts using the routine

- +Wrote RSpec tests following test-driven development
- +Implemented internal API using Ruby on Rails for journal data using ActiveRecord Serializer
- +Incorporated AJAX to create modals, rollovers, dropdowns, and interactions with the internal API
- +Designed database schemas and ActiveRecord Model Associations
- +Used OmniAuth for OAuth authentication with Facebook

EDUCATION

Flatiron School - 2018

- + Full Stack Web Development bootcamp, focusing on Ruby on Rails/JavaScript/React

Fordham Gabelli School of Business- Bronx, NY- *Spring 2018*

- + Bachelor's of Science Degree: Finance, Minor: Psychology
- + GPA: 3.15
